

**ROSEAL-F Tablets**

Rosuvastatin & Fenofibrate Tablets I.P.

ROSEAL-F is a combination of Rosuvastatin and Fenofibrate used for the management of mixed dyslipidemia. It effectively helps reduce elevated cholesterol and triglyceride levels while improving the overall lipid profile, thereby lowering the risk of cardiovascular complications.

**Indications:**

- Management of high cholesterol and triglycerides
- Mixed dyslipidemia
- Prevention of cardiovascular diseases in high-risk patients

**Mechanism of Action:**

- Rosuvastatin reduces LDL cholesterol and increases HDL cholesterol.
- Fenofibrate lowers triglycerides and improves lipid metabolism.

**Dosage:**

As directed by the physician.

**Storage:**

Store in a cool, dry place away from direct sunlight.

**Warning:**

Prescription drug. To be used under medical supervision only.
