

Roseal Gold 20 Capsules

Composition: Rosuvastatin, Clopidogrel & Aspirin Capsules

Description: Roseal Gold 20 is a combination therapy used to manage dyslipidemia and prevent cardiovascular events. Rosuvastatin lowers cholesterol levels, while Clopidogrel and Aspirin help prevent platelet aggregation and reduce the risk of blood clots.

Indications: Prevention of myocardial infarction, stroke, and other cardiovascular complications in high-risk patients.

Dosage: As prescribed by the physician.

Storage: Store below 25°C in a dry place. Protect from light.

Disclaimer: Prescription-only medicine. Use under medical supervision.
